Tents must be secured with other methods, such as water weights. The Center is landscaped with trees and bushes which can also be damaged by poles and stakes. Stakes cannot be driven in near roots. If tents are to be set on the lawn area, the location must be approved by the Town. The Town will consider the duration and location of the tent set-up and potential damage to pavement, lawn, bushes and trees in giving approval. If a tent set-up fails to properly protect the pavement or lawn from damage, the Town may require the immediate correction or removal of the set-up.

The Center may limit the use of the facility if the use does not further these goals.
