Review of Potential Projects for 2016

Given the limited capacity of the Energy Committee it was decided that until we have more participation we should devote our activities to project not requiring extensive hours of planning.

It was agreed that the Energy Committee propose a series of Sustainable Living Workshops to be delivered by the Rockingham Library in consultation with the Sustainable Energy Outreach Network and the Rockingham Conservation Commission. If approved by the Conservation Commission, we will be in touch with Ann Dempsey at the Library to plan 4-5 workshops in 2016

Other Business

It was announced that the Selectboard approved and signed the PACE Agreement with Efficiency Vermont. The Energy Committee will follow-up with a PR campaign to encourage participation.

Meeting adjourned at 7:15

Respectfully submitted.

Guy Payne
