Ralph Meima presented a draft of a 500kW Group Net Metered Solar Proposal for the Town of Rockingham. There was a discussion around the option of beginning with a Sales Service Agreement and then town purchases the system after 7, 10, 15, 20 years at fair market value.

There continues to be strong interest in exploring the use of the gravel pit off 103. Act 250 does not apply. If 3 phase capability is needed that will be the responsibility of the developer to upgrade.
